

AIA Architectural Seminars

Systems Approach to Tile and Stone

Architects, specifiers, owners, and other design professionals in the residential and industrial/commercial markets are invited to join **Schluter®-Systems** and **Specialty Tile**, for a 1 hour CEU credit presentation. Let our technical experts answer all your questions along with fellow colleagues in an informative, energetic atmosphere. Food courtesy of Schluter®-Systems.

Date: Thursday, October 13, 2011

Location:

**SPECIALTY
TILE PRODUCTS INC.**

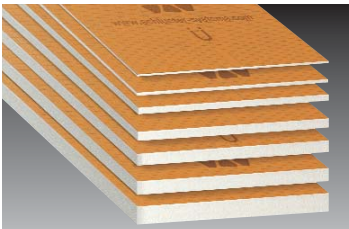

Session 1: 12:00 p.m. - 1:00 p.m.
Serving lunch

838 Orange Avenue, Winter Park, FL 32789

Session 2: 6:00 p.m. - 7:00 p.m.
Happy hour & hors d'oeuvres

R.S.V.P.: Kelli Kohler at kkohler@specialtytile.com
1-407-647-9355

AIA CREDIT IS AVAILABLE FOR ALL ELIGIBLE ATTENDEES.

Schluter®-KERDI-BOARD

Whether you work with mosaics or large-format tiles, an absolutely flat substrate with straight and precisely aligned inside and outside corners is essential for creating a perfect tile covering - which tile installers can now achieve on their own, using Schluter®-KERDI-BOARD. KERDI-BOARD is waterproof and dimensionally stable, as well as lightweight and easy to work with. Substrate, building panel, bonded waterproofing... discover the possibilities!

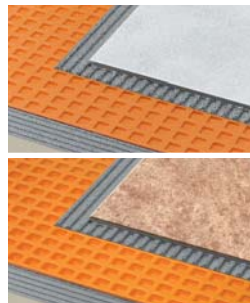

Shower System

Waterproofing is the foundation of a successful tiled bathroom. Moisture-sensitive construction materials must be protected from water and vapor penetration to prevent damage, and the growth of mold. Learn about the Schluter®-Shower System - an integrated family of products that create fully waterproof and vaportight enclosures for tiled showers, steam showers, and bathtub surrounds.

Schluter®-KERDI-LINE

A low profile linear floor drain specifically designed for bonded waterproofing assemblies. KERDI-LINE can be installed adjacent to walls or at intermediate locations in showers, wet rooms, and other applications that require waterproofing and drainage. The floor can be sloped on a single plane to KERDI-LINE, which enables the use of large-format tiles and creates interesting design opportunities. 3 grate assembly designs available: closed, perforated, or tile pan.

DITRA & DITRA-XL

Learn how a multi-functional underlayment produces tiled floors that will last a lifetime. Specifically designed for ceramic and stone tile, Schluter®-DITRA and DITRA-XL provide uncoupling, waterproofing, vapor management and load support - the 4 essential functions for a successful installation.

Profiles

Discover how profiles both protect and beautify tile installations. Protect tile edges and create smooth transitions on tiled floors; finish and protect tile edges on walls; see how profiles allow you create beautiful, functional tiled countertops - without the need for ceramic trim pieces; create safe and durable tiled stairs; and learn about proper use of movement joints.
