

PROFILE OF INNOVATION

Live Demonstrations

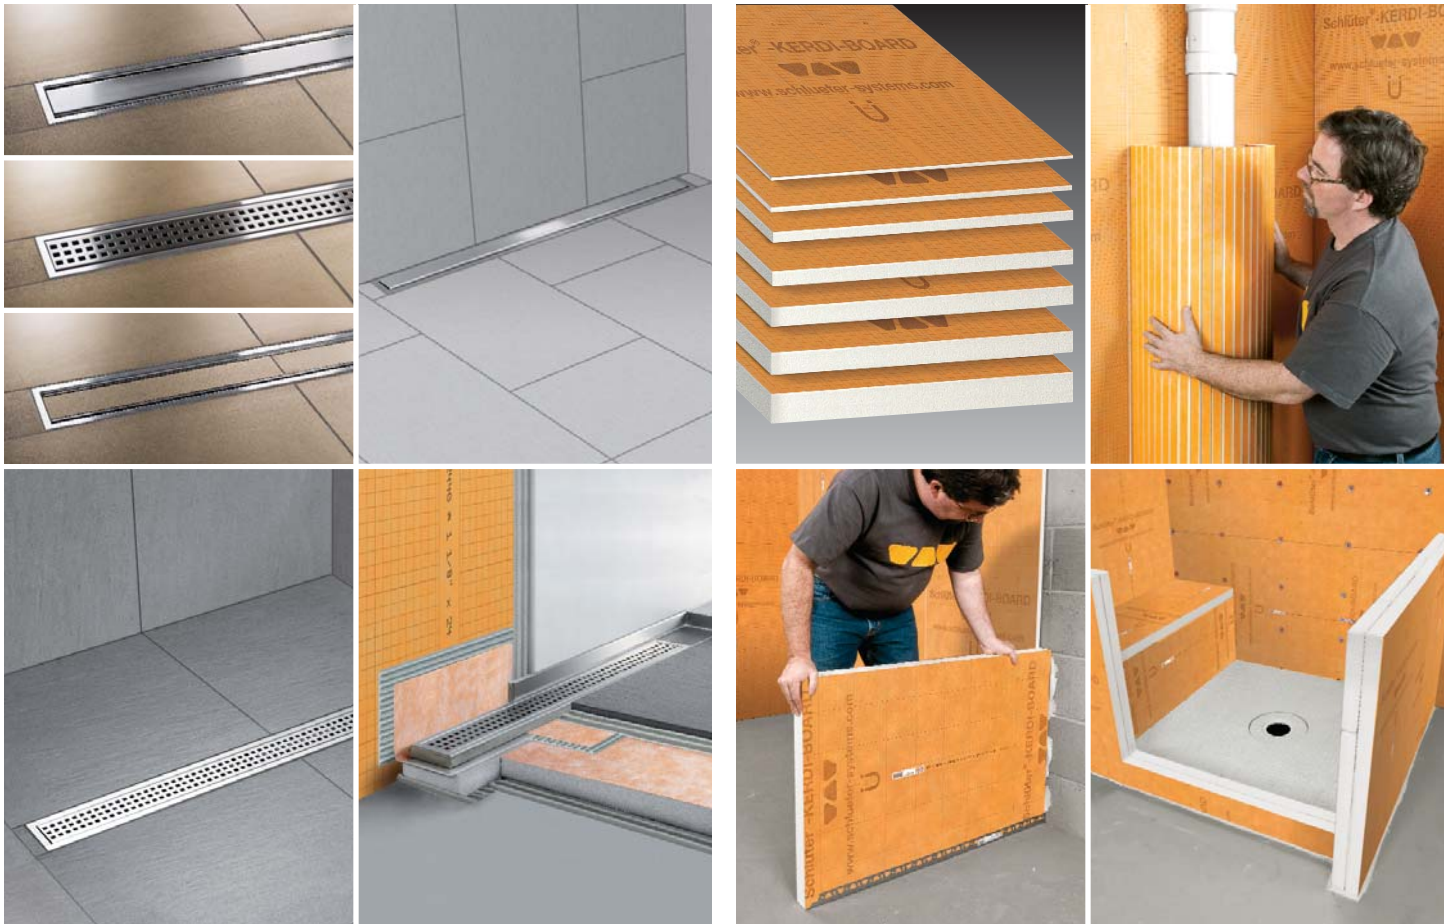

The Technology Behind the Tile:

Come observe live demonstrations of **Schluter®-KERDI-LINE**, and **Schluter®-KERDI-BOARD**. Let's show you how they're installed and answer all your questions about these products as well as the rest of the Schluter® product line. Food and nonalcoholic beverages will be served.

Date: Wednesday, November 16, 2011

Time: 6:00 p.m. - 7:30 p.m.

Location: FLOORS PLUS – 5681 Highway #1, Cambridge, NS B0P 1G0 – (902) 538-8826

Schluter®-KERDI-LINE

A low profile linear floor drain specifically designed for bonded waterproofing assemblies. KERDILINE can be installed adjacent to walls or at intermediate locations in showers, wet rooms, and other applications that require waterproofing and drainage. The floor can be sloped on a single plane to KERDI-LINE, which enables the use of large-format tiles and creates interesting design opportunities. 3 grate assembly options: closed design, perforated, or tile pan.

Schluter®-KERDI-BOARD

Whether you work with mosaics or large-format tiles, an absolutely flat substrate with straight and precisely aligned inside and outside corners is essential for creating a perfect tile covering - which tile installers can now achieve on their own, using Schluter®-KERDI-BOARD. KERDI-BOARD is waterproof and dimensionally stable, as well as lightweight and easy to work with. Substrate, building panel, bonded waterproofing... discover the possibilities!
