

PROFILE OF INNOVATION

# Schluter® Live Demo Seminar

## The Technology Behind the Tile

**Schluter®-Systems**, along with **Centura London**, will be hosting a Seminar on Schluter®-KERDI-LINE, Schluter®-KERDI-BOARD, and Schluter®-DITRA-XL with live demonstrations. Let our technical experts answer all your questions along with fellow colleagues in an informative, energetic atmosphere. Refreshments will be served.

**Date:** Thursday, November 24, 2011

**Time:** 6:30 p.m. - 8:30 p.m.

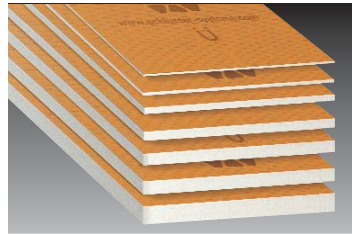

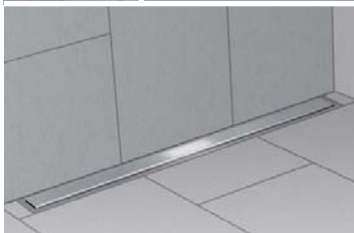

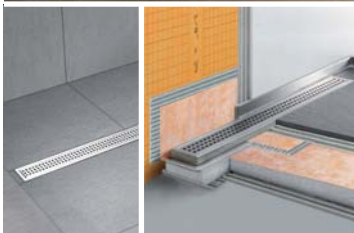

**Location:** Centura London – 993 Adelaide St. S. London, ON N6E 1R5

**R.S.V.P.:** Maria D'Avirro at 519-681-1978, ext. 101 or [centura@centuralondon.com](mailto:centura@centuralondon.com)

### Schluter®-KERDI-LINE

A low profile linear floor drain specifically designed for bonded waterproofing assemblies. KERDI-LINE can be installed adjacent to walls or at intermediate locations in showers, wet rooms, and other applications that require waterproofing and drainage. The floor can be sloped on a single plane to KERDI-LINE, which enables the use of large-format tiles and creates interesting design opportunities. 3 grate assembly options available: closed design, perforated, or tile pan.

### Schluter®-KERDI-BOARD

Whether you work with mosaics or large-format tiles, an absolutely flat substrate with straight and precisely aligned inside and outside corners is essential for creating a perfect tile covering - which tile installers can now achieve on their own, using Schluter®-KERDI-BOARD. KERDI-BOARD is waterproof and dimensionally stable, as well as lightweight and easy to work with. Substrate, building panel, bonded waterproofing... discover the possibilities!

### Schluter®-DITRA-XL

Learn how a multi-functional underlayment produces tiled floors that will last a lifetime. Specifically designed for ceramic and stone tile, Schluter®-DITRA-XL has been engineered to provide uncoupling, waterproofing, vapor management and load support – the 4 essential functions for a successful installation.
